

Half-Round Frameless End Dump

PCI's steel End Dump trailers are manufactured to meet your hauling and dumping applications. All are equipped with NTEA-rated hoists with precision manufactured cylinders. Trailers, bodies and hoists are fully welded to ensure strength and durability. PCI's trailer also features standard components, such as sturdy steel construction, full depth rear corner posts and skirts and heavy-duty hinges, as well as options that allow users to customize each trailer to fit their individual applications.

Contact your PCI Mfg. Solutions sales representative for more information on any of PCI's trailers, tanks or containers.
